## MODERN TRAVERTINE CREATIVE SERIES

Vasari x Cebos Color

The collaboration of Vasari x Cebos Color gives way to an exciting modern travertine effect. The lime-based travertine effect is brought to new heights thanks to the combination of modern-day metallic paint by Cebos Color, and the travertine plaster effect with Vasari Marmorino. The result is an astounding masterpiece of textures and effects that is truly a feast for your eyes.

While the travertine effect adds depth to touch, providing your space with better dimension and character, the metallic paint from Cebos Color glazes and adorns the travertine effect with a layer of precious metallic lustre, which allows your space to sparkle and reflect with a unique, iridescent two-tone finish.
